Project Summary- Provide a brief description of your project: For planning projects include a final deliverable.

For the past 4 years, BayRICS received regional funding for public safety communications planning and governance. This proposal is for $69,000 for management services for continued support of communications planning and regional governance required to ensure interoperability of public safety voice and data communications. Funding will be used to coordinate the deployment of the FirstNet network and to develop and implement regional policies and procedures for coordinated communications. At the direction of the BayRICS Board, this proposal requests a one-time increase of $10k over past awards, reflecting cost of living adjustments for BayRICS contract staff and one-time costs associated with the Authority's General Manager transition.

This field is limited to 750 characters.

For equipment projects, please provide an inventory of the requested item currently used in the county:
