Project Summary- Provide a brief description of your project: For planning projects include a final deliverable.

Support planning and governance required to deploy the FirstNet nationwide public safety broadband network. This network will enable first responders and emergency managers to share critical information to prevent, respond to and recover from terrorist attacks.

This is year three of the BayRICS regional broadband planning and governance project. The grant will support terrorism preparedness by funding contract services to help the Bay Area plan for the deployment of the FirstNet nationwide public safety broadband network, and to develop and implement regional governance policies and procedures. The deliverables will include a report detailing the pros and cons of adopting FirstNet services and recommendations for Bay Area agencies. It is anticipated that this will be the final year of planning for FirstNet, as the network is expected to be deployed during 2018.
