- A. **New Bay Area UASI Website** – Our new website is live and can be found at [www.bayareauasi.org](http://www.bayareauasi.org). The website has many new features and is a bit easier to navigate than our last website. You will still be able to view CBRNE/T&E meeting dates, times, agenda's and minutes as well as a whole host of other things. You will also be able to connect to the Training and Exercise Website to register for classes.
  
  - B. **RCPGP** – An additional \$230,000 is being added to this grant to spend on Regional Catastrophic Preparedness courses. The time frame given is very short so we will have to work fast to find vendors and sites to conduct courses. Please let me know if you are interested in hosting a class.
  
  - C. **Grant Year 2010** – There was quite a bit of money returned to UASI from jurisdictions that were unable to spend it. In order for us to make sure that jurisdictions spend their money in a timely manner, we will be doing more monitoring of projects. You can expect a call from me or other Project Managers asking the status of your projects on a frequent basis. Remember, 2012 has a 2-year performance period so we want to find out sooner rather than later if a project will not be able to be completed.
  
  - D. **2013 Project Proposals** – All 2013 Project Proposals will be heard in their perspective Hubs this month. If you have a project, we strongly suggest that you attend this meeting to give an overview of that project. All projects will be ranked and then moved to the Advisory Group for recommendation to the Approval Authority. The Approval Authority will then consider project approvals at their March meeting.
- V. **ADJOURNMENT - Next Meeting February 21, 2013 @ 10:00 AM (Vetting Session for Training Proposals)**
