# BAUASI : RTEP

Bay Area UASI Regional Training & Exercise Program

## Preface

The Bay Area Urban Areas Security Initiative's (UASI) Regional Training and Exercise Program (RTEP) has developed the UASI region's Multi-Year Training and Exercise Plan (MYTEP) for 2016-2018. This MYTEP outlines regional training and exercise needs and how they might be accomplished within the upcoming years. The RTEP and its operational area representatives have decided upon a strategy that combines enhanced planning, innovative training, and realistic exercises to strengthen emergency preparedness and response capabilities. Training and exercises provide the means to attain, practice, validate, and improve capabilities. This plan supports constituent agencies located within the Bay Area UASI region in preparing to optimally address the natural and human-caused threats and hazards present in the Bay Area.

In preparation for the MYTEP, multi-discipline representatives and key stakeholders from the operational areas comprising the twelve county Bay Area UASI region attended a two day course titled "Readiness: Training Identification Preparedness Planning," held on April 21-22, 2015. The course was instructed by the National Center for Biomedical Research and Training (NCBRT) from Louisiana State University (LSU). On the first day of the course, participants were taught how to evaluate their jurisdictional abilities and create effective training plans for their agencies and jurisdictions. On the second day of the course, participants were divided into discipline-specific groups and tasked with developing a regional training needs assessment. This included identifying specific training courses for the next three-year cycle (2016-2018) to address regional gaps identified in the Threat and Hazard Identification and Risk Assessment (THIRA), the Bay Area Homeland Security Goals and Objectives, the 2014 Risk and Gap Analysis, and the 2014 Urban Shield After Action Report (AAR).

## Handling Instructions and Points of Contact

- The title of this document is the Multi-Year Training and Exercise Plan (2016-2018).
- The information in the Bay Area UASI MYTEP is unclassified.
- The attached materials have no special handling instructions.
- This project was supported by the California Emergency Management Agency under UASI Grant #2015-00078, OES ID 075-95017, awarded by the US Department of Homeland Security.

# BAUASI : RTEP

Bay Area UASI Regional Training & Exercise Program

## Introduction

### Purpose

The purpose of the Bay Area UASI MYTEP is to outline the training and exercise program needs for multi-discipline first responders and stakeholders located in the twelve county Bay Area UASI region. The MYTEP was developed using guidance contained in the Bay Area UASI Homeland Security Goals and Objectives, the Department of Homeland Security (DHS) Homeland Security Exercise and Evaluation Program (HSEEP), and the National Incident Management System (NIMS).

### Overview

The Alameda County Sheriff's Office, on behalf of the Bay Area UASI, administers the RTEP. The RTEP is responsible for facilitating regional first responder training and exercises designed to address identified training gaps and regional priorities. In order to accomplish this goal, the RTEP utilizes a regional Training and Exercise Workgroup (TEW) comprised of multi-discipline first responders who serve as subject matter experts and have authority to determine training needs for their regions. The RTEP conducts monthly workgroup meetings to facilitate training and exercise needs and provide updates about the program.

The MYTEP is designed to be a tool to assist the RTEP, with assistance from the TEW, in establishing training priorities for the next several years. The MYTEP will be reviewed annually to re-evaluate training needs and priorities.

The information contained in this plan is primarily tied to UASI funding; however, regional stakeholders should consider leveraging other funding sources when appropriate.

The MYTEP provides a list of courses, which were identified during the Readiness: Training Identification Preparedness Planning Workshop in April 2015. To address any new or additional training needs, Bay Area UASI regional stakeholders are able to submit course proposals to the RTEP, which will be vetted by the TEW. Given the evolving needs of the Bay Area UASI region, the development of a training calendar over the three-year period is a continuous and dynamic process. The training calendar provided in the MYTEP only provides a forecast over the next three year cycle and will change based on available grant funding, shifting regional priorities and training needs, availability of instructors and so forth.

The RTEP maintains a current list of available courses on their website at [www.bauasitep.org](http://www.bauasitep.org).

Bay Area UASI Regional Training & Exercise Program

## Program Priorities

### National Preparedness Goal

Presidential Policy Directive 8: National Preparedness (PPD-8) describes the Nation's approach to preparing for the threats and hazards that pose the greatest risk to the security of the United States. The Goal is achieved by:

- Preventing, avoiding, or stopping a threatened or an actual act of terrorism
- Protecting our citizens, residents, visitors, and assets against the greatest threats and hazards in a manner that allows our interests, aspirations, and way of life to thrive
- Mitigating the loss of life and property by lessening the impact of future disasters
- Responding quickly to save lives, protect property and the environment, and meet basic human needs in the aftermath of a catastrophic incident
- Recovering through a focus on the timely restoration, strengthening, and revitalization of infrastructure, housing, and a sustainable economy, as well as the health, social, cultural, historic, and environmental fabric of communities affected by a catastrophic incident

The National Preparedness Goal identified 32 core capabilities—these are the distinct critical elements needed to achieve the goal. These capabilities are referenced in many national preparedness efforts, including the National Planning Frameworks. The Goal grouped the capabilities into five mission areas: Prevention, Protection, Mitigation, Response, and Recovery.

Please visit FEMA's National Preparedness Goal website for more information:

<http://www.fema.gov/national-preparedness-goal>

## Core Capabilities by Mission Area

Prevention	Protection	Mitigation	Response	Recovery
Planning				
Public Information and Warning				
Operational Coordination				
Intelligence and Information Sharing		Community Resilience	Infrastructure Systems	
Interdiction and Disruption			Critical Transportation	Economic Recovery
Screening, Search, and Detection			Environmental Response/Health and Safety	Health and Social Services
Forensics and Attribution	Access Control and Identity Verification	Long-term Vulnerability Reduction	Fatality Management Services	Housing
	Cybersecurity	Risk and Disaster Resilience Assessment	Fire Management and Suppression	Natural and Cultural Resources
	Physical Protective Measures	Threats and Hazards Identification	Logistics and Supply Chain Management	
	Risk Management for Protection Programs and Activities		Mass Care Services	
	Supply Chain Integrity and Security		Mass Search and Rescue Operations	
			On-scene Security, Protection, and Law Enforcement	
			Operational Communications	
			Public Health, Healthcare, and Emergency Medical Services	
			Situational Assessment	

## Bay Area UASI Homeland Security Goals and Objectives

The Bay Area UASI developed program goals in accordance with the national priorities listed above. The Bay Area UASI Homeland Security Goals and Objectives document (formerly the Bay Area Homeland Security Strategy) was updated in July 2015 and integrates the federally required THIRA. The seven Bay Area UASI goal areas are as follows:

- Risk Management and Planning
- Information Analysis and Infrastructure Protection
- Communications
- CBRNE Detection, Response, and Decontamination
- Medical and Public Health Preparedness
- Emergency Planning and Community Preparedness
- Recovery

Please visit the [www.bayareauasi.org](http://www.bayareauasi.org) to view the Goals and Objectives document.

## Bay Area UASI Regional Risk and Gap Analysis

The Bay Area UASI produces the Regional Risk and Gap Analysis on an annual basis. This analysis shows where gaps are greatest and risk level the highest by core capability in the Bay Area region. The analysis is created by analyzing asset risk, the threats faced in the Bay Area, and the level of ability to address these threats. The level of ability is assessed by subject matter experts using a series of performance measurements by core capability across the POETE continuum (Planning, Organization, Equipment, Training and Exercises). The Risk and Gap analysis as well as the capability assessment information is also available at the operational-area level. Bay Area stakeholders are encouraged to use both the regional and operational area-level risk and gap analyses as well as the regional and operational area-level capability assessment information when identifying training priorities.

Please visit the [www.bayareauasi.org](http://www.bayareauasi.org) to view the Regional Risk and Gap Analysis as well as the Compendium of Core Capabilities, which provides detail on the capability assessment information.

## Regional Training & Exercise Goals and Priorities

### Fire (HazMat / USAR / Maritime)

---

#### **Supported Goals & Capabilities:**

##### *Regional Training & Exercise Goals:*

- Enhance chemical, biological, radiological, nuclear and explosive (CBRNE) capabilities
- Enhance rescue capabilities (technical / maritime)
- Enhance command and control of significant regional all risk incidents

##### *Core Capabilities Supported:*

- Environmental health and safety
- Threats and hazards identification
- Infrastructure systems
- Screening search and detection
- Operational coordination
- Mass search and rescue ops
- On scene security and protection
- Critical transportation

##### *Bay Area UASI Homeland Security Goals and Objectives Supported:*

- Information Analysis and Infrastructure Protection
- Communications
- CBRNE Detection, Response, and Decontamination
- Emergency Planning and Community Preparedness

**Supporting Training Courses:**

HazMat:

- HazMat 3-day DNDO Quick Start
- HazMat Assistant Safety Officer
- HazMat CTOS AWR-140
- HazMat CTOS PER-240
- HazMat Homemade Explosive NMT-EMRTC-HME
- HazMat IC (CSTI)
- HazMat IQ
- HazMat Technician Modules A-D (CSTI)
- HazMat Technician Modules F-G (CSTI)
- HazMat WMD (CSTI)

Maritime:

- Open Water Rescuer Basic
- Rescue Boat Specialist (Rigid Hull Rescue Boat)
- Rescue Boat Technician (Inflatable Rescue Boat less than 18 feet)

Urban Search & Rescue:

- USAR Advanced Rope Rescue
- USAR Command and Control
- USAR Confined Space
- USAR Medical Specialist
- USAR Rescue Systems 1
- USAR Rescue Systems 2
- USAR Rescue Systems 3
- USAR Tower Rescue
- USAR Trench Rescue

All Risk Hazards:

- All Hazards-Communications Unit Technician
- DNDO RND Concepts, Tactics and Integration Course (RCTIC)
- E/L 950 All Hazards Incident Commander
- E/L 952 All Hazards Public Information Officer
- E/L 954 All Hazards Safety Officer

All Risk Hazards (Continued):

- E/L 958 All Hazards Operations Section Chief
- E/L 960 All Hazards Division/Group Supervisor
- E/L 962 All Hazards Planning Section Chief
- E/L 964 All Hazards Situation Unit Leader
- E/L 965 All Hazards Resource Unit Leader
- E/L 967 All Hazards Logistics Section Chief
- E/L 969 All Hazards-Communications Unit Leader
- E/L 973 All Hazards-Finance Section Chief
- Fire/EMS Operations in the Warm Zone
- ICS 300 (Intermediate ICS for Expanding Incidents)
- ICS 400 (Advanced ICS)
- O-305 All Hazard Incident Management Team

**Supported Goals & Capabilities:**

*Regional Training & Exercise Goals:*

- Enhance capability to respond to and operate within all-hazards / critical incidents including integrated multi-discipline response
- Enhance capability for proficient use of tactical inter-operable communication systems
- Enhance chemical, biological, radiological, nuclear and explosive (CBRNE) capabilities

*Core Capabilities Supported:*

- Interdiction and Disruption
- Operational Coordination
- Intelligence and Information Sharing
- Public Information and Warning

*Bay Area UASI Homeland Security Goals and Objectives Supported:*

- Risk Management and Planning
- Information Analysis and Infrastructure Protection
- Communications
- Medical and Public Health Preparedness
- Emergency Planning and Community Preparedness
- Recovery

**Supporting Training Courses:**

Tactical Response:

- Advanced Hostage Negotiations Course
- Advanced Response Patrol Officer (NTOA)
- Campus Emergencies, Prevention, Response and Recovery
- Law Enforcement Active Shooter Emergency Response (PER-275)
- Tactical Lifesaver
- Tactical Response to School/Community Violence

EOD:

- Advanced Precision Grid Aim System
- EOD Large Vehicle Countermeasures
- EOD Tactical Robot Driving & Repair
- Tech Electronic Circuitry
- Tech ID Device Design & Defeat

Maritime:

- Maritime Interdiction
- Surface Supplied Air Dive Training for Public Safety Divers
- Underwater Explosive Search and Validation Course

Critical Incident Response:

- COM-T
- Critical Incident Response for Executive Staff
- Critical Incident Response for Field Officers
- Critical Incident Response for Supervisors & Managers
- ICS 300 (Intermediate ICS for Expanding Incidents)
- ICS 400 (Advanced ICS)
- Social Media for Natural Disaster Response and Recovery (NDPTC - PER-304)
- Tsunami Awareness (AWR-217)

Terrorism/WMD:

- 2-day DNDO Quick Start
- Biological Incidents Awareness (AWR-118)
- DNDO RND Concepts, Tactics and Integration Course (RCTIC)
- Home Made Explosives
- Initial Law Enforcement Response to Suicide Bombing Attacks
- Law Enforcement Prevention & Detection of Terrorism
- Site Protection through Observational Techniques SPOT (AWR-219)
- Transit Terrorist Tools and Tactics (PER-276)
- WMD Radiological/Nuclear Awareness Course (AWR-140)
- WMD Radiological/Nuclear Responder Operations Course (PER-240)

**Supported Goals & Capabilities:**

*Regional Training & Exercise Goals:*

- Enhance Emergency Operations Center and ICS capabilities
- Enhance regional public information and warning systems
- Enhance mass care and sheltering capabilities
- Enhance stress management capabilities and provide psychological first aid to the public
- Enhance cyber security awareness and response capabilities

*Core Capabilities Supported:*

- Operational Coordination
- Planning
- Public Information & Warning
- Mass Care Services
- Health & Social Services
- Cyber Security
- Fatality Management Services
- Operational Communications

*Bay Area UASI Homeland Security Goals and Objectives Supported:*

- Information Analysis and Infrastructure Protection
- Communications
- Medical and Public Health Preparedness
- Emergency Planning and Community Preparedness
- Recovery

**Supporting Training Courses:**

Multi-Hazard Mitigation Planning

- Common Operating Picture Situational Awareness
- G 557 Rapid Assessment Workshop
- EOC Action Planning
- Intro to Computer Aided Management of Emergency Ops (CAMEO)

Integrated Emergency Management

- O-305 All Hazard Incident Management Team
- G-775 EOC Management and Operations
- Essential Emergency Management Concepts: Earthquake
- JIC/JIS Training
- SEMS EOC Section/Position Planning and Intelligence Training

Response & Recovery

- Shelter Management
- Tactical Medicine
- Volunteer Management

Response & Recovery (Continued)

- Community Healthcare Planning Training (MGT-490)
- Critical Incident Stress Management
- Donations Management
- G 202 Debris Management
- G 270 Disaster Recovery
- G 270.4 Disaster Recovery
- G 290 Enhanced Crisis Communications
- MGT 347 Incident Command Systems Forms Review Training
- PER-304 Social Media for Natural Disaster Response and Recovery
- MGT-439 Pediatric Disaster Response and Emergency Preparedness
- MGT-490 Community Healthcare Planning Training
- Mass Fatality Management Systems
- Media Survival
- Medical Preparedness and Response for Bombing Incidents
- Medical Response to Active Shooter

Universal Emergency Preparedness

- AWR 217 Tsunami Awareness
- E/L 952 All Hazards Public Information Officer
- E/L 958 All Hazards Operations Section Chief
- E/L 962 All-Hazards Position Specific Planning Section Chief Training
- E/L 965 All-Hazards Position Specific Resources Unit Leader Training
- E/L 967 All Hazards Logistics Section Chief
- E/L 973 All-Hazards Position Specific Finance/Admin. Section Chief
- E/L 975 All Hazards Position Specific Finance Administration

Incident Command System

- G 191 ICS/EOC Workshop Interface
- ICS 300 Intermediate ICS for Expanding Incidents
- ICS 400 Advanced ICS

## Training & Exercise Methodology

### Overview

The Bay Area UASI MYTEP is intended to provide training and exercise guidance to the Bay Area UASI region's first responders. The information contained in the MYTEP was developed through the collaboration of regional stakeholders and is based upon existing regional gap analysis, after action reports, and developing trends in the first responder communities.

In order to achieve the preparedness goals outlined in the MYTEP, the RTEP, with the support and guidance of the TEW, will conduct regional training needs assessments and schedule training courses throughout the Bay Area UASI region. In addition, the RTEP will support regional exercises to further develop the skills and abilities of first responders and validate training courses facilitated through the RTEP in compliance with the policies and procedures set forth in HSEEP. The RTEP will then utilize the areas for improvement identified during exercises and repeat the cycle.

### Training

The training courses listed in the MYTEP were determined by regional, multi-disciplined stakeholders during the Readiness: Training Identification Preparedness Planning Workshop in April 2015. These courses will serve as a guide to help facilitate the training needs of the Bay Area UASI region over the next three-year cycle. The RTEP will also conduct an annual review of the MYTEP with the TEW to ensure training and exercise priorities are addressed and allow input from the Bay Area UASI region on future training priorities.

The RTEP recognizes the changing dynamics of regional training and exercise priorities and has a system to allow regional stakeholders to submit training and exercise proposals online at any time through the RTEP website at [www.bauasitep.org](http://www.bauasitep.org). Once the proposal has been submitted, the RTEP staff review the proposal to determine if it is complete and meets the grant funding

requirements. The proposals are then reviewed and vetted by the TEW and prioritized utilizing a scoring tool. Upon completion of the vetting session, RTEP staff completes an internal review. For more information regarding the proposal, vetting, and approval process, please visit [www.bauasitep.org](http://www.bauasitep.org) or refer to the *Bay Area UASI Regional Training and Exercise Program Guidance Manual*.

## Special Event Planning

The RTEP will support and fund regional training and exercise activities in preparation for special events such as Super Bowl 50 held in Santa Clara, CA.

## Exercises

### Regional Exercises

The RTEP supports regional exercises that fall within federal grant guidelines and adhere to the policies and procedures set forth in HSEEP. Stakeholders interested in holding a regional exercise should contact RTEP staff for further information.

### Urban Shield Full-Scale Exercise

Urban Shield is a 48-hour, continuously sustained, full-scale disaster preparedness exercise with numerous realistic venues throughout the San Francisco Bay Area. Urban Shield effectively tests the skills, tactics and endurance of participating law enforcement tactical and EOD teams, fire departments, emergency medical services (EMS) personnel, emergency management personnel and other participants from various local, state, and federal agencies. Urban Shield involves thousands of participants, including emergency managers, tactical officers, regional law enforcement and government employees, as well as transportation, fire, EMS, military, and related corporate personnel, testing the region's ability to coordinate and sustain a large-scale event. Some of the goals of this multi-jurisdictional, full-scale exercise involve critical infrastructure integration to include on-site employees, integration of EMS and fire with law enforcement, testing of communications, evaluation of core competencies, and a thorough gap analysis. Striving to meet these goals prepares emergency personnel for a unified response to disasters and mass casualty emergencies. Additionally, Urban Shield serves as an outstanding platform to test new and innovative equipment and technology.

Since 2013, Urban Shield has included additional regional full-scale and functional exercises designed to evaluate emergency management of catastrophic events. These exercises provide regional Emergency Operation Centers (EOC) the ability to activate and collaborate with one another, through the Cal OES Region EOC per SEMS. In addition, they seek to exercise the eight Bay Area Regional Catastrophic plans as part of the Bay Area Regional Catastrophic Planning Grant Program Sustainment Plan. These exercises improve collaboration between Bay Area agencies and increase the region's ability to respond to critical incidents.

# BAUASI : RTEP

Bay Area UASI Regional Training & Exercise Program

## Multi-Year Training & Exercise Schedule

### Overview

The MYTEP provides a list of courses identified as regional priorities, which will assist the RTEP in addressing regional training needs. The Bay Area UASI region is also able to submit course proposals to the RTEP to address any new or additional training needs. Therefore, given the evolving needs of the Bay Area UASI region, the development of training calendars over the three-year period of the MYTEP will be a continuous and dynamic process. The RTEP maintains a current list of available courses on the RTEP website at [www.bauasitep.org](http://www.bauasitep.org).

The training courses listed in the 2016 calendars were determined to be regional priorities during the RTIPP course in April 2015, as well as the annual course prioritization sessions held in late 2015.

Development of training calendars for years 2017–2018 will occur on an annual basis during subsequent annual reviews of the MYTEP and course prioritization sessions. Following these reviews, a calendar for the following year will be generated and included in this document.

**PLEASE NOTE:** The projected courses listed in the calendars in this document are subject to availability, funding, regional needs and priorities or other requirements and are subject to change by the RTEP staff. Not all courses listed in the MYTEP may reach sufficient priority to be presented in any given year. Courses listed in the MYTEP and any new or additional training needs will be prioritized by the TEW on an annual basis. Any courses determined to be a higher priority by the TEW may supersede other courses listed on the training calendars.

## Training Calendars (Fire)

### Training Calendar (2016)

Course Name	Quarter 1	Quarter 2	Quarter 3	Quarter 4
All Hazards-Communications Unit Technician		X		
DNDO RND Concepts, Tactics and Integration Course (RCTIC)				X
E/L 950 All Hazards Incident Commander		X
